Boston Architectural Center  
Boston, Massachusetts  
*Architectural Design*

Chaminade University  
Honolulu, Hawai'i  
*Professional Practices*

### **PERSONAL STATEMENT**

Over the course of my career I have been privileged to lead the design of many significant projects and work with industry-leading clients. I enjoy meeting the challenges presented by large, technically complex projects. My expertise covers a broad range of architectural services ranging from planning and design, to technical detailing, quality control, and construction administration. I am broadly experienced in all areas of project leadership and have excellent communication skills.

I have always maintained a high level of commitment to excellence in design, technical quality, and client service. I am committed to the principles of sustainable design, and to ensuring that my projects I'm make a positive contribution to their communities. I believe the most successful designs are those that respect local context, traditions, and environmental conditions.
